

LAUNDRY CENTER - MKTG15GNAWB

Save money, time and space with our large capacity laundry center!

An American-style Laundry Center, offering unique benefits not found in top load washers, front load washers, or traditional washer-dryer combination units.

The integrated design is more economical than single washer and single dryer units. A small footprint uses half the space, without taking away your ability to wash one load while another dries.

Key Benefits

XL Capacity

Wash several days of laundry in just one large load with 15 kg capacity

Refresh Cycle

Even after all-day use, quickly and easily refresh already-dry clothing

Low Profile Agitator

Improves wash performance and uses less water than traditional top loads

Stainless Steel Drum

Durable drum design resists corrosion and requires less maintenance

IEC SYSTEM FOR CONFORMITY TESTING TO STANDARDS FOR SAFETY OF ELECTRICAL EQUIPMENT (IECEE) CB SCHEME
